

Very Thing Stars

It s actually originally tabbed by an Unregistered person, but I found that his chords seemed to sound a bit funny and I made some changes to it that seemed to sound fine. There s a part missing near the ending, but generally it works fine to my ears

I play it with a capo on 1st.

C **Am**
The bar closes early on the Sabbath day
F **G**
So me and my kid we hit the park to play
C **Am**
Then it d start to rain so we d walk home again
F
He asked why he was born
G
I don t know what to say

C **Am**
I don t feel guilty and I don t feel sad
F **G**
This mother fucking life is the best he s had
C **Am**
I said I ve been there sonny and it ain t that bad
F **G**
I took my hits from the shits back when I was a lad

Chorus:

F **Am**
So long ago and even though I tried
C **G** **F**
I couldn t make him see the life he had cast in front of me
Am **C** **G**
And even though I cried I couldn t make him be the very thing I needed

(Same chord progression of **C**, **Am**, **F**, **G**)

His mother d make a scene when I come home late
She look like she s dying but she s twenty eight
I never loved that whore I never will no more
Except for a month back in 84
The jam was playing and my heart stood still gazing at a shadow on the window sill

Chorus: (Chord progression of **F**, **Am**, **C**, **G**)

So long ago and even though I tried I couldn t make her see I wasn t quite the man
she thought I d be

And even though I cried I couldn't make her be the very thing I needed

And even though I tried I couldn't make her see I wasn't quite the man she
thought I'd be

And even though I cried I couldn't make her be the very thing I needed

(This is the part I've not figured out)

Could she be the very thing I needed?

Could she be the very thing

the very thing
