

Cause I don t want your body

**G** (E)

I don t want your body

**Am**

Your sold me some cheap ecstasy

**C**

So you could have some sex with me

**G** (Em)

I don t want your body

**G**

I don t want your body

(Verse pattern)

Face down up on the bar

I always said you d get far

But you re not the kid you used to be

Someone should call your family

White line that time I called before

Flash bulbs which pop to keep you warm

I ve watched you slowly fall away

The color fade, from blue to grey

The window blind undrawn

You flash your trash to turn me on

You re just a tramp, you re just a trick

Our hunger starts to make us sick

Lie down and try to talk to me

Sleep now and dream of who you ll be

But will you actually be anyone?

Chorus:

You tune into my frequency

That don t mean a thing to me

Cause I don t want your body

I don t want your body

Your sold me some cheap ecstasy

So you could have some sex with me

I don t want your body

I don t want your body

You tune into my frequency

That don t mean a thing to me

Cause I don t want your body

I don t want your body

Your sold me some cheap ecstasy

So you could have some sex with me

I don t want your body

I don t want your body

We don t want your body (x4)

high fives! Zack
