Life would not matter

Dived straight in on your girlfriend
Making her feel like there s gonna be a war, oh
Dived straight in at the deep end
Making you feel like there s gonna be a war

So I turn to you and I say
Thank goodness for the good souls
That make life better

So I turn to you and I say
If it wasn t for the good souls
Life would not matter

(Break)

One good day of the week and I ll be up again
One good day of the week I ll be higher than the goverment

So I turn to you and I say
Thank goodness for the good souls
That make life better
So I turn to you and I say
If it wasn t for the good souls
Life would not matter

So I turn to you and I say
You re messing with a good heart
You ve gotta take what s you
