When I came to figure out the chords to this song, I was absolutely bewildered.  
At  
I couldn't figure it, all I was getting was C. But after 20 minutes of hard  
listening and  
turned up to the max, I came up with what follows... (Don't hold back to correct  
me,  
I'm not sure if it's correct myself!)

**C#                    B            F#**  
If you wake up and don't wanna smile  
**C#            B                    F#**  
If it takes just a little while  
**C#                    B            F#**  
Open your eyes, look at the day  
**G#**  
You'll see things in a different way

**C#            B            F#**  
Don't stop thinking about tomorrow  
**C#            B            F#**  
Don't stop, it'll soon be here  
**C#                    B            F#**  
It'll be here better than before  
**G#**  
Yesterday's gone, yesterday's gone

Why not think about the times to come  
And not about the things that you've done  
If your life was bad to you  
Just think what tomorrow will do

Don't stop thinking about tomorrow  
Don't stop, it'll soon be here  
It'll be here better than before  
Yesterday's gone, yesterday's gone

All I want is to see you smile  
If it takes just a little while  
I know you don't believe that it's true  
I didn't mean any harm to you
