oh it s very very nice here

but i wouldn t wanna live here

you got your blazing red  
you got your frozen breath  
watch the countryside just bleed to death  
and then the ground turns white  
and the sky turns brown  
and the whole damn world looks upside down

brown brown dead end town  
just like a-living in a hole in the ground  
brown brown upside down  
well it isn t very nice here  
and i wouldn t wanna live here

green, green, keep it clean

stick all your money up your money machine
