I ve been in a strange place for someone new  
it doesn t make me feel so good  
I can t hide the hurt inside  
I never knew it could be this way

I musn t let it show, keep it to myself  
No-one really cares I m with someone else  
Woah, it looks like nothing I can do

And I remember what you said  
back in December, it messed my head  
and every day, in every way  
it s all about you

No-one really cares I m with someone else  
Woah, it looks like nothing I can do

And I remember what you said  
back in December, it messed my head  
and every day, in every way  
Oh I remember when we met  
and we surrender, we soon forget  
and every day, in every way  
it s all about you
