You say you re all right

You don t care anyway

I m listening, you re trying to say

You think I m crazy

You re thinking you got everything right

But you re fooling no-one else but yourself

If you get lonely

You can t get along by yourself

If you re finding

You re needing me

Don t wait forever

For me to come a-following you

I ll wait here, you come back by yourself

{Chorus}
