My Old Ways  
Status Quo  
Quid Pro Quo 2011

**G**

A lotta love, a lotta luck

and you and me it seems

will always be together

it took a while, a little smile

in the good times, bad times

**D7**

any kind of weather

(**D7**)

It doesn't matter what the funny people said

**G**

**D7**

All that matters is the trouble up ahead

**G**

I didn't ever see it come into the way

The Sunday papers as I'm lying in my bed

**C**

Why why why

**G**

why couldn't we see

**C** **A7**

my old ways

**D**

keep troubling me

I gotta look, I wanna see  
and if the heebee jeebees  
have it all together  
I caught a bug and you believe  
you know the Bee Gees  
said it wasn't very clever

Another day, another night, another call  
another way, another fight, another brawl  
It doesn't matter 'cos I know we've got it all  
Another day, another shop, another mall

Why why why  
why couldn't we see  
my old ways  
keep troubling me
