Today I m daytripping out to sea

like the bird on the wing

nothing s bothering me

I wanna be flying high

up to the clouds

with my feet still on the ground

I ll drift away I know I m safe

now that I've found my

Mystery Island, Mystery Island  
in the sun yeah  
Mystery Island, take me away from it all  
you don't look back, you don't look back  
you just leave your worries behind  
you wanna stay on Mystery Island
