Today I m daytripping out to sea
like the bird on the wing
nothing s bothering me
I wanna be flying high
up to the clouds
with my feet still on the ground
I ll drift away I know I m safe

now that I ve found my

Mystery Island, Mystery Island

in the sun yeah

Mystery Island, take me away from it all

you don t look back, you don t look back

you just leave your worries behind

you wanna stay on Mystery Island
