Away, away from the madding crowd
C#            F#    E                    B
I sit and dream oh I m singing out loud
C#                     F#                  E
under that coconut tree I ll close my eyes
        B
drift away and think of you
C#                    F#
walking on in the sand
            E                     C#   C#7
I ll take your hand and lead you to
```

```
F#                   E
Mystery Island, Mystery Island
B           C#
in the sun yeah
F#                   E                  B   C#
Mystery Island, take me away from it all
             F#                  E
you don t look back, you don t look back
          B
you just leave your worries behind
          G#m B          F#
you wanna stay   on Mystery Island
```

```
|F#|   |E|   |B|   |B C#|
```

```
Today I m daytripping out to sea
like the bird on the wing
nothing s bothering me
I wanna be flying high
up to the clouds
with my feet still on the ground
I ll drift away I know I m safe
```

now that I ve found my

Mystery Island, Mystery Island
in the sun yeah
Mystery Island, take me away from it all
you don t look back, you don t look back
you just leave your worries behind
you wanna stay on Mystery Island
