Soft in the head, I must be soft in the head
 Out of my head, I'm probably out of my head
 Things that I said are only things that I said
 Soft in the head I must be
 Out of my head, I must be out of my head
 Soft in the head I must be

I've got a great big problem that I can't work out
 I've got a bunch of people gonna wear me out
 Got a funny feeling it's all in the air
 We're all going home one day

But I don't believe in not believing in miracles
 Anything could happen now
 We all need a guiding light in the alleyway
 Funny how it all works out
 But I don't believe in not believing in miracles
 Anything could happen now
 We all need a guiding light in the alleyway
 Funny how it all works out

Pretty much it!
