Come Alive
Steadman

```
intro
e-----3-----3--------3------3--------3------3--------3-------|
B---3-----3------3------3-------3-----3-------3----------|
G-0-----0---------------------------4------------------4--|  x2
D------------0-----4------2---------------2-----------|
A----------------------------------------------------------|
E----------------------------------------------------------|
```

[verse one]
```
 G                    Em
Come alive and let the motion rock you
 G                    Em
Let it send you off to sleep
 G                          Em
Come inside, there s nothing left to shock you
 G                        Em
Now you ve landed on your feet
```

[Chorus]
```
Bm                    A
Then after all the fun is over
Bm                          A
You will still have all the memories
F#                 A                        G
Come alive and see the world through all the trees
```

[verse two]
```
 G                        Em
Come alive, you know it s more than breathing
 G                        Em
Have to wrestle with your soul
 G                        Em
Show it that you re close to understanding
 G                        Em
Don t give up and think you re too old
```

[Chorus]

[bridge]
```
 D                    Bm           F#
Feel the change rising up inside you
 D                    Bm        F#
See the fear scare itself away
 D                    Bm           F#
Find a road leading back to your life
 D                    Bm
Come alive, give the rest away
```

```
 D                           Bm       (i think) C D Cm Bm
Come alive, give the rest away

(solo)
