E|-0-|-0-|-x-|-x-|-1-|-1-|
```

Capo: 1st fret

[Intro] **C** - **D7** - **F** - **C**

[Verse 1]

```
 C                                               D7
Imagine a world where every city is clean, No poor on the streets and the people
are free
 F                                               C
Imagine a life where you can do as you please, Nothing to stop you from living
your dream
    C                                       D7
They say you can accomplish anything, So why not make this a reality
F                               C
We can rebuild societies, Câ€™mon all you got to do is believe
```

[Chorus]

```
      C                               D
Right now weâ€™re all too distant, too blind and too resistant
   F                       C
To see the situations we must solve,
          C                               D
Our lies and cries and misconceptions, throw us in the wrong direction
        F                           C
But if we change a revolution could evolve
```

[Verse 2]

```
 C                                               D7
Imagine a feeling thatâ€™s so unreal, Itâ€™s a natural high from the clarity
```

```
F                               C
We can all change society, If we just focus and start to believe
   C                                        D7
Unnatural disasters off the streets, clear our minds and let the world breathe
F                                            C
This won't come unless we work as one, 'til we all unite and we get our jobs
done
```

[Chorus]

[Bridge]

```
C7                              D7
Over the years friendships have died, wars have been fought and tears have been
cried
   Fm                                       C
Enough with the hate let's learn to forgive, rekindle the love and never
regret
C7                              D7
Colours will fade if we don't take a stand, the world will turn gray if
we're not hand-in-hand
      Fm                                    C
Let's stop our fighting, let's see eye to eye, It'll be alright, keep our
hand up high
```

[Chorus] 2x
