                                   G/B
                                        Asus4 Asus4 A
We will get there
[Verse 2]
                            D/F#
So now we begin, working together to win
Believing in trust, it must
Be possible to overcome anything
There s so much to do, there s so much we can contribute
By sharing just a little love
        Em7
We will start again anew
                           D/F#
So why don t we try? If we stand side by side
              C2
I know we ll build a new world
    G/B
A world of hope for ever after
[Chorus 2]
                        A/C#
Deep in my heart I just know
Right from the start, we will grow
Look where we are, we ve come so far
                     E/G#
And there s still a long, long way to go
                          A/C#
With all of my heart, I will care
             Bm
I ll play my part, I will share
                  G
With family and friends, together we ll stand
And in the end, hand in hand
We will get there
                        A/C#
Deep in my heart I just know
Right from the start, we will grow
Look where we are, we ve come so far
                    E/G#
And there s still a long, long way to go
                             A/C#
With all of my heart, I will care
