Think

pretty close(: i already did a tab of this song, where i included the lyrics and

but they never posted it, so im just doing another(:

Tuning:Standard

C#	B	A	Eadd?
-0-	-0-	-0-	-0-
-0-	-0-	-0-	-0-
-6-	-4-	-2-	-9-
-6-	-4-	-2-	-9-
-4-	-2-	-0-	-7-
-x-	-x-	-x-	-x-

So this is a pretty simple song, and the chord progressions are easy.

for the verses its: **C#**, **B**, Eadd? and A (sorry i dont know what  
the 3rd chord is)

then the pre chorus is the same, but when you play the Eadd? you strum it two  
quick strums.

Chorus: same as verse, but strum B and Eadd? twice.

Verse 2: same as verse 1.

Pre Chorus & Chorus: same

Bridge: im not able to figure out what the first chord is in the bridge. So i  
just play

**C#**, **C#**, **A**, **B**. It sounds close enough(:

then he goes into a little finger picking part. very easy. All you have to do is  
pick

the chords in the order of the verse chords, but very quickly.

And that is the whole song. End on: **B**.

If anyone could tell me the name of the thrid chord thatd be helpful, and if  
there are

corrections(:
