

**Milwaukee**

**Stephen Kellogg and The Sixers**

the other tab on here was basically right but when i was playing it i noticed it sounded

of off and i watched some videos of stephen playing it and it looks like its played

a capo on the 5th fret so here are the chord shapes it looks like he is playing and when

played it like this it sounds basically perfect

verse:

**D Asus4 G**

chorus:

**Bm Asus4 G**

bridge:

**Em G**

thats basically it the timings pretty straight forward...for the verse you play D and

for a measure apiece and then the G for two and likewise at the chorus Bm and Asus4 each

a measure while G gets two...as far as the bridge goes its a bit different i would

just listening to the song and playing what you think sounds best because i m not

certain myself and i kinda play it a bit differently every time
