D **G**
Made love to you all night long
D **G**
Then I got to write you this song
D **G**
(I admit, I forgot this line)
D **G**
Must have been sent from heaven above
A
Don t think you could ever do no wrong
(stop) **D** **G**
Then you farted
D **G**
Oh baby you farted!

At first I thought that it was kind of cute
I suppressed a smile when I heard your girlie poot-poot
Then the smell came a-wafting by
Brought a little tear drop to my eye
Think that I ll go sleep out on the couch
Cuz you fart

Bm **G**
It could make milk curdle, make your skin
Bm **G**
Make the paint peel off of the wall
Bm **G**
Don t wanna sleep under the covers no more
A
Since the hot blew from outcha back door.

I think s**t my pants!
