She s Got a Smile

Very simple, very funny...

Finger pick through G C D G for the verses

G **C** **D** **G**
She s got a smile, oh she s got a smile
G **C** **D** **G**
And she s flashing it right at me

She s got a wink, a wink across the bar
and I know that s meant to be.
She s got a walk, oh she s walking over
and I think this could be my day.
She s got a ... friend, oh she s a got a friend
Why she standing in her way?

*strum **G C D G**
Its a big fat friend
Oh God there s always one (Big fat friend)
To spoil my f**king fun.

Now baby baby baby if its boots you want to knock
Leave your chubby friend at home because she s gonna
block the c**k
Now I m afraid of no man, with any I l contend,
But I cannot compete with your big fat friend

*pick again

So big fat friend, ah we meet again,
You won t leave her alone
you roll your eyes, make sarcastic comments
while you re sucking on a chicken bone

I see you, you think you won the battle but I tend to disagree
See I know you, and your Achilles Heel and he s standing next to me

My non-discriminating friend
So what that you re a cow (non discriminating friend)
I ll nail you any how.
I know that he s no looker and he s had a couple rounds
But for every shot of Jeger hey you lose a couple pounds.

Now baby baby baby bring the evening to an end
Just you and me and my pal and your Big Fat Friend
