

Sunshine

Steve Azar

Capo 1

|C|C|C|Am|Dm|G7|

Your (C) dark hair draped across my pillow
Says I finally (Am) got it right
And as I (Dm) watch you dreaming, twisted in the sheets
I can't stop thinking about (G7) last night

Well I've waited (C) so long, so long, so long
For someone like (Am) you
And as this (Dm) morning breaks through the window pane
It reveals (G7) the truth

(Chorus)

Baby, you're my (C) sunshine, first light
Find your way to places that only (Am) know lies
Failed tries and bruised skies
With hardly time to (Dm) hold on or be strong
Now I'm strong cuz like the dawn
You (G7) push it all away
I tell ya, you're my (C) sunshine
Everybody needs a little (Am) sunshine (G7)

Your (C) fingertips, a kiss to this tired face
It's like I'm (Am) young again
Well I feel (Dm) beautiful but most of all vulnerable
Since (G7) you broke in

(Chorus)

So won't you (C) take me, take me, take me
Anywhere and (Am) everywhere you go
All the (Dm) warmth you bring to this cold heart
With the slightest touch is (G7) enough to know

Baby, you're my (C) sunshine
Everybody needs a little (Am) sunshine
Yeah, you're my (Dm) sunshine
Cuz like the dawn you (G7) push it all away

|C|Am|Dm|G7| (repeat and fade)
