

This City
Steve Earle

Steve Earle does lots of modulation on the D (mostly sus2 and sus4 from what I can tell)

D

This city won t wash away
This city won t ever drown
Blood in the water, and Hell to pay
Sky tear open and pain rain down

G

Doesn t matter let come what may

Em

I ain t ever gonna leave this town

D

This city won t wash away
This city won t ever drown

D

Ain t the river or the wind to blame
As everybody around here knows
Nothing holding back Pontchartrain
cept a prayer and a promise s ghost

G

This town s digging our graves

Em

In solid marble above the ground

D

Maybe our bones will wash away
But this city won t ever drown

D

This city won t ever die
Just as long as our heart beats strong
Like a second line steppin high
Raisin hell as we roll along

G

Gentille to Vieux Carre

Em

Lower 9, Central City, Uptown

D

Singing jockamo fee nanã©
This city won t ever drown

G

Doesn t matter cause there ain t no way

Em

I m ever gonna leave this town

D

This city won t wash away

This city won t ever drown.
