The first time you take a drink

F Bbm

It makes you spit & sputter

Shiver and shudder

Bbm

Mumble and mutter

Bbm Bbm/G

But the next one tastes so sweet

Ebm

It makes you want another

F# F Bbm

And now you re drinkin all the time

F# Bbm

If you re lookin for trouble

C# F Bbm

Trouble will find you

F

Trouble will find you

Bbm

Trouble will find you

F# Bbm

Don t go lookin for trouble

C# F Ebm

Trouble will find you

F# F Bbm

And you sure don t have to look too hard

The first time you shade the truth

You want to run and hide

Your tongue gets tied

Your throat gets dry

And you start thinkin that maybe no one knows you lied

And now you re shady all the time

Don t go lookin for trouble

Trouble will find you

Trouble will find you

Trouble will find you

Don t go lookin for trouble

Trouble will find you

And you sure don't have to look too hard

Ebm

Trouble will pin a tail on you

Bbm F Bbm

And follow you around

Ebm

And catch you when your number's up

C F Cmaj7#5

And when your guard is down

The first time you fall in love

And the skies are sunny

She calls you honey

Your jokes are funny

Then she reminds you she was only in it for the money

And now you're drinkin' all the time

Don't go lookin' for trouble

Trouble will find you

Trouble will find you

Deaf, dumb, & blind you

Don't go lookin' for trouble

Let me remind you

You sure don't have to look too hard

Trouble in your own backyard
