

**Wheres The Party**  
**Steve Goodman**

Whereâ€™s the party  
Steve Goodman

**Em Bm7 Em Bm7 Em Bm7 Em**

**C D Bm Em C D G G7**  
Every night the stars come out to light another town  
Just because Iâ€™m lonely doesnâ€™t mean that gets me down  
I cruise the local drive-in watchinâ€™ lovers holdinâ€™ hands  
**C D Bm Em C D G**  
Like movie stills of Coupe Devilles and Japanese sedans

Chorus

**Em Bm7 Em Bm7**  
Whereâ€™s the party  
**Em Bm7 Em Bm7**  
Whereâ€™s the party  
**Em Bm7**  
Everybody I know  
**Em Bm7 Em Bm7**  
Say they expect me to go to the party

Sometimes I wish the radio would learn another song  
Iâ€™d stay at home and watch tv if there was somethinâ€™ on  
Ooh but why should I get all deressed up when thereâ€™s no place to go  
Still everybody looks at me as if they think I know

Chorus

**F G**  
I could stay here all night long  
**F G**  
Wait for her to call  
**F G**  
Or I could put my walkman on  
**Em B**  
And never care at all

Still every night the stars come out to light another town  
And just because Iâ€™m lonely doesnâ€™t mean that gets me down

Chorus
