

Blood And Glory
Steve Vai

This is my first tab so don't expect miracles. I have done what sounds right but there are probably gonna be a number of mistakes. I have not included the timing so you'll have to listen to the album to work it out. I will post the verses and solo later but for now here is the main chorus melody (the easy part!!!!)

Key:

H- Hammer on

P- Pull off

^- Bend one semitone (1 Fret)

^^- Bend one tone (2 Frets)

>- Scoop
