

Light Of The Moon  
Steve Vai

**E**  
She never knew how cold it gets,  
**A** **B** (**C#m D#**)  
Alone in a city she never will forget  
**E**  
As tears seem to fall like lead  
**A** **B** (**C#m D#**)  
Into his silent and empty bed  
**A** **B**  
They were never meant to be alone  
**A** **B**  
In two cities they never could call home  
**F#m** **G#m** **A** **B**  
And all his letters she holds to her breast  
**F#m** **G#m** **A** **B**  
So his words she could breathe into her self  
And they said

Chorus

**E** **A**  
We could go live in a city down under  
**E** **A** **B**  
Where all the sunshine and people are good  
**A** **C#m** **A**  
And the melody spoke in rainbows of colours  
**E** **F#m** **B** **E**  
And we ll dance in the silvery light of the moon  
**C#m** **F#m** **B** **E**  
We could be drinking the light of the moon

**E**  
Without him her days are dark  
**A** **B** (**C#m D#**)  
She can't see the sunrise or even the stars  
**E**  
Stares into a picture frame  
**A** **B** (**C#m D#**)  
Remembering her laughing while running in the rain  
**A** **B**  
And he regrets the things he said  
**A** **B**  
That broke her down, the day that she left  
**F#m** **G#m** **A** **B**  
Lifes to precious to let it slip away  
**F#m** **G#m** **A** **B**  
And now her message is clear as a bell, and it says

**E** **A**  
We could go live in a city down under  
**E** **A** **B**  
Where all the sunshine and people are good  
**A** **C#m** **A**  
And the melody spoke in rainbows of colours  
**E** **F#m** **B** **E**  
And we ll dance in the silvery light of the moon  
**C#m** **F#m** **B** **E**  
We could be drinking the light of the moon

Solo

**E A B** (2x)  
**A B**(2x)  
**F#m G#m A B**(2x)

**E** **A**  
We could go live in a city down under  
**E** **A** **B**  
Where all the sunshine and people are good  
**A** **C#m** **A**  
And the melody spoke in rainbows of colours  
**E** **F#m** **B** **E**  
And we ll dance in the silvery light of the moon  
**C#m** **F#m** **B** **E**  
We could be drinking the light of the moon
