## Higher Love Steve Winwood

```
D
Think about it, there must be higher love
Down in the heart and in the stars above,
Without it, life is wasted time.
               G
                         Em
                                                          D
Look inside your heart, i ll look inside mine
Things look so bad everywhere
                                         C
In this whole world, what s fair?
                                               \mathbf{Em}
We walk blind and we try to see
                                       Bm
Falling behind in what could be.
                                    Em
Bring me a higher love
Bring me a higher love,
                             D
                                   Em
Bring me a higher love
                                                                  D
Where s this higher love, i ve been thinking of?
                      C
                            G
                                                                D
Worlds are turning and we re just hanging on
                                                      D
Facing our fear, standing out there alone
                                             D
                     G
Oh a yearning, and it s real for me
                                                 \mathbf{Em}
                                                                D
                                                                          (Em)
There must be someone who s feeling for me
                                               Em
Things look so bad everywhere
                                          C
In this whole world, what s fair?
                                               Em
We walk blind and we try to see
                                       Bm C
Falling behind in what could be
                                   \mathbf{Em}
Bring me a higher love
                                    \mathbf{Em}
Bring me a higher love,
                             D
                                     Em
Bring me a higher love
                              G
                                                                   D
                                             Em
```

```
Where s this higher love, i ve been thinking of? (2x)
               ( Em
                     D
                              C)
I will wait for it, i m not too late for it
Until then, i ll sing my song
                                             (Em)
To cheer the night along
I could light the night up with my soul on fire
                                                        C
I could make the sun shine from pure desire
Let me feel the love come over me
                                       D
                                              ( D )
Let me feel how strong it can be
              G
                         D
Bring me a higher love
               G
                           D
                                 \mathbf{Em}
Bring me a higher love, oh
               G
                                 \mathbf{Em}
Bring me a higher love
             C G
                                               D (CGDEm)
                                        Em
I could rise above for this higher love
              G
Bring me a higher love
                                 \mathbf{Em}
Bring me a higher love, oh
                                 \mathbf{Em}
Bring me a higher love
Bring me a higher love.
```
