Love Take Me Over Steven Curtis Chapman

Many thanks to Marty Keith for figuring this out and posting a YouTube tutorial,

which I ve blatantly plagiarized with his permission for this tab. There s a lot of muting and staccato, especially in the intro and verses. Just listen to the recording to catch the groove, or check out Marty s video for strumming instruction.

I claim no rights to this - I just wrote it down.

Tuning is DADGAD tuned down 1/2 step (Db,Ab,etc.)
