Take me on with you when you reach the shore

Make your footprints deep as you did before

Take me on with you when you leave this place

Say to me my brother that we will never stay.

Take me with you when this cougar comes

Treating us like children pressed underneath his thumb

Take us all with you when reach the shore

Take your arrow and leave it in the neighbor's door.

Am

He will come a callin'. ignore his calls.

He will only see you when you fall.

Leave this dirty camp lying down river.

Just like mother dying of the cold.

Am (hold full x4)
