

Love Lives
Steven Tyler

F **F7M** **Gm**
I look at you, you look at me, I knew it then but you couldn't see it
Bb/C **F**
And now you've come around
F7M **Gm**
I wander away, you stay behind, but I got the memories to remind me
Bb/C **Dm**
Of how you used to,
Bb **Gm** **Eb** **C** **Bb/C**
Hold me so tight, be by my side, and make it alright
F **Bb/C** **Gm7**
Love gives, and love takes, Yeah it will keep you up in the middle of night
C4 **C**
And catch you when you're falling
F **Bb/C** **Gm7**
Love gives, what love makes, if you let it go it'll always come back
C4 **C** **Bb/C**
When it hears you calling, love li-----ves

I know You're there you always were
There'll be an end of all this hurting
But how many tears will fall?
Before you're back into my arms so I can tell you I've been dying
Without you
Too many nights are passing us by but we'll make it by

Love gives, and love takes, Yeah it will keep you up in
The middle of night and catch you when you're falling
Love gives, what love makes, if you let it go it'll always come back

When it hears you calling
Dm **Bb**
Love lifts you up and lets you fly and makes you think
Dm **Bb**
You'll never die, It's/ just like live in heaven and
Gm7 **Eb**
You'll never ever wanna come down
F/G **Bb/C**
Cause Love is, what love makes
Dm **Eb**
And true love never breaks

Cause Love gives, and love takes
Yeah it will keep you up in the middle of night
And catch you when you're falling
Love gives, what love makes

If we let it go it ll always come back, when it hears you

Love gives, and love takes

Yeah it will keep you up in the middle of night

And catch you when you re falling

Love gives, what love makes, yeah, if you let it go

It ll always come back, when it hears you calling

Love Lives..
