Oh once in a while

Horses shadows and rain on stone

No god here I m sure

For all this carrion and aimless drift

Retreat from the begging

And invites to the wedding

Revelation means nothing here

In time we forget our

Need to devour

All the stories of tortured souls

Crawl into your arms

A **Em**

Become the night forever

F **G**

Coiled and close, the moment froze

Deform to form a star

A **Em**

Here on earth together

F **G**
I got time to share and a well used stare

This smile isn't pure

Certain or sure

The way we uncoil

Return to the soil

Flaws are everything and chaos reigns
