

Weight Of Sound
Stick Figure

This is my favourite song. Hope you enjoy.

Capo 2

[Verse]

A **E** **F#m**
This one goes out to my girl tonight
A **E** **F#m**
I ll sing a song for you because the mood is right
A **E** **F#m**
It s 2:16 on a Saturday night
A **E** **F#m**
My girl she is passed out, she s not feeling alright

A **E** **F#m**
Twenty four hours can be a long time
A **E** **F#m**
To be lying in bed from the previous night
A **E** **F#m**
I ll sit here and drink myself a beer
A **E** **F#m**
All night long, I ll sing this song till you call on me, yeah

[Pre-chorus]

A **E** **F#m**
Tomorrow will come and the sun will shine
A **E** **F#m**
Well I ll be sitting here right by your side
A **E** **F#m**
So let the music soothe your soul
A **E** **F#m**
Let the music take control
A **E** **F#m**
Everything you do or say comes back to you
A **E** **F#m**
When things don t work out right, you got to push on through

[Chorus]

A **E** **F#m**
So keep on running, keep on moving
A **E** **F#m**
Everything is gonna be alright
A **E** **F#m**
Keep on smiling, keep on laughing

A **E** **F#m**
Every little thing is gonna be alright

[Verse]

A **E** **F#m**
If you left this choice up to me

A
Don't tell me what you got girl

E **F#m**
Baby please tell me what you need

A **E** **F#m**
I must confess, I've been blessed but I'll never say never

A **E** **F#m**
Cause I could die today but this music lives forever

A **E** **F#m**
And nothing is impossible, nothing is out of your reach

A **E** **F#m**
It's just another love song, just another melody

A **E** **F#m**
So keep believing in your dreams, life's not what it seems sometimes

A **E** **F#m**
And love the air you breathe, you got everything you need for tonight

[Interlude]

A **E** **Fm** **A** **E** **F#m**
Running away, running away

A **E** **F#m** **A** **E** **F#m**
So far from this place, running away

[Chorus]

A **E** **F#m**
So keep on running, no... keep on moving, yeah...

A **E** **F#m**
Everything is gonna be alright

A **E** **F#m**
Keep on smiling, no... keep on laughing, yeah...

A **E** **F#m**
Every little thing is gonna be alright

A **E**
Playing on your radio, coming through your stereo
F#m

And everybody's getting down

A **E**
You can't seem to let it go, running like a video
F#m

You're haunted by the weight of sound

A **E** **F#m**
In your eyes, you focus on the light

A **E** **F#m**
And for tonight, just relax and let s get high

A **E**
The sun it is a sinking low, I m thinking that it s time to go
F#m
And everybody s headed home

A **E**
Watch them as they come and go, listen to your soul it knows
F#m
Can you feel the weight of sound?

A **E** **F#m**
It s just love there s nothing that s more real

A **E** **F#m**
This love, and the way it makes you feel
