Sticky Fingers

Verso 1:

```
        C#m
You wouldn t believe me
The stories I tell you
                    E
We reached for the stars
But it fell downwards
            C#m
It ruined my hairdo
But nobody said so
                    E
 Cause they got all cleaned up
But I m still around
```

Refrão:

```
        A
Is anybody out there
          E

              C#m      Bm
But why should I care?
                          A
There ain t no ending to this world
              E
