

You Only Cross My Mind In Winter
Sting

Capo.: 3

Always this winter child,
Dm G7 C
December s sun sits low against the sky

Cold light on frozen fields,

The cattle in their stable lowing.

When two walked this winter road,
Dm G7 C
Ten thousand miles seemed nothing to us then,
Am B Am
one walks with heavy tread

The space between their footsteps slowing

All day the snow did fall,
Dm
What s left of the day is close drawn in,
C A A7
I speak your name as if you d answer me,

F C
But the silence of the snow is deafening
F G
How well do I recall our arguments,
C F
Our logic owed no debts or recompense,
Dm G7
Philosophy and faith were ghosts that we would chase until
C D D7 G
The gates of heaven were broken

C G
But something makes me turn, I don t know,
Cm G
To see another s footsteps there in the snow,
F Dm
I smile to myself and then I wonder why it is
G G7 C
You only cross my mind in winter
