There s a Cloud hanging over you  
Can t find shelter from the rain  
And a shadow follows you.  
You don t even know its name

**D**

It stalls and it moves as you move

**C**

There was something tired and weary in the voice  
That called to say hello  
A once loving heart it seems  
Turned cold as stone

**D**

The promise and the dream

**Bm**

Have suddenly run dry

**C**

and you cry

**G**

**D**

**C**

I hear you cry when you cry like the rain

**G**

**D**

**C**

No one cries when you cry like the rain

**G D**

**G**

When you cry like the rain

**G**

There s a world of fools for lovin  
And some fools get through from time to time  
When trouble stirs the water then some fools  
Run away and hide.

**D**

**Bm**

And right or wrong for whatever reason why

**C**

Some fools cry

**G**
