Verse:

C#m B A

Angels stole our hearts
No miracle or drug
Could ever change our future
And everything we lost
To the beat of aching hearts
Sing there will be no answer

Chorus:

A G#m B (C# EB E)

Where did I go wrong?
My Generation
Where did I go wrong?
Now all the seasons collide
Is it something that is lost?

Answers open up
A new synthetic trust
Wind the clocks in motion
Oh shadows cast on you
The ones who hold the truth
Have been holding on too long

You know that I will

Chorus:

Where did I go wrong?

My Generation

Where did I go wrong?

Now all the seasons collide

Is it something that is lost?
