VERSE

Bm, G, A, Bm

Little supernovas in my ?
Little soft pulses in my dead,
Little souvenirs and secrets shared,
Little of guard and unprepared,
I was never good enough to find
I was never bad enough to mind
In the middle I will do my best
Take me in your arms and leave the rest

Bm, G, A, Bm

Little variations on my page
Little doors open on my cage
Little time has come and gone so far
Little by little who you are
I can see the patterns on your face
I can see the miracles I trace

Symmetry in shadows I can't hide
I just wanna be right by your side
