Afraid To Let Go
Strawbs
[Intro]
[Verse]
In the light of the morning after
There s no lover s laughter
                                        C
Just a pile of clothes beside my door
In the street I can hear the rain
But in my heart there s only pain
I ve seen you look that way before
[Chorus]
F#dim7
Oh, I can t let go
                       C G C
         F#dim7
I find it hard to be without you
                  Am
I want to feel you all around me
          C
                  G
Hold on to you somehow
               Am
And I pray that you ll stay with me
       G
I m so afraid to let you go
[Verse]
                           F
You watch the clock as you fix your make up
Turn around as you hear me wake up
But you can t look me in the eye
You grab your coat and start to run
 Cause you can t face the only one
Who makes it hard to say goodbye
[Chorus]
F#dim7
               F
