

**Bobby Powers**  
**Street Dogs**

Standard Tuning-  
Key of **C**

Intro:

**C Csus4 C Csus4** x2

(basically play C and add your 4th finger one fret above your ring finger, you can almost always pull this trick off, no matter the key)

(had a hard time finding the lyrics,  
figured these out on my own and they might not be correct.)
