

**Anjane  
Strings**

For some reason i have been trying to read if i was wrong but i realized that most of the chords recorded/posted here are wrong. So here is the perfect chord sequence (WHAT I THINK) for this amazing song.

Chords: **A#, G#, D#, F**  
Tuning: Standard

**A#                    G#    D#            A#**  
Dekha tujhe to hua, hua main deewana

**A#                    G#    D#            A#**  
Dekh ke aisa laga, laga saathi purana

**F    D#            A#            G#    D#            A#**  
Hue----- begaane kion? Hue---- he. Anjane kion

(repeat)

**A#                    G#                    D#                    A#**  
Ik rasta tera, ik rasta mera, hai dono ki manzil juda

**A#                    G#                    D#                    A#**  
Hum do humsafar, hum do ajnabi, hum dono ka ik khuda,

**F    D#            A#            G#    D#            A#**  
Hue----- begane kion? hue----he, Anjane kion

And the same goes on for the rest of the song.. if you need tabs for the intro or any other songs, feel free :) comments and suggestions are welcomed.

Have fun!
