When I left you let me go
Am **C** **G**
Didnâ€™t see me stumble or see me fall

Its just the times we used to be
Am
In a life we used to lead
C **G**
Where the moments they were free
D
Its just the place we used to go
Am
With the writing on the wall

Where everyone else has gone before

I am haunted by my dreams
Night mare from subconscious dreams
Hide behind these closing doors
And find the face I was before

Its just the times we used to be
In a life we used to lead
Where the moments they were free
Its just the place we used to go
With the writing on the wall
Where everyone else has gone before
