[Verse 1]

I do not have a trust fund
Or any hefty deposits
I might get some guns and antiques when my parents die
If my brother doesn't want them first
cause he is so responsible
And good at taking care of things
And I am such a failure it could not be more embarrassing
If you could fly from winging it I'd grow a thousand pair of wings
And soar the fuck away from everything

[Instrumental]

C7

[Verse 2]

But I can not own a gun now
And I threw out all of my belts
And all my pants are falling down
cause I can't stop thinking about hanging myself
And I don't want to seem too dramatic or crazy
I just need a little break from a life I'm not feeling lately or at all
Please try to understand please try hard not to hate me
