

Leaving
Suede

F Dm F Dm Gm F#m

F Dm F
Can see the sun drip from the sky
Dm Gm
The scar stains, the cloud in your eyes
F#m
Slowly a raindrop falls

F Dm F
See the rain fall through the day
Dm Gm
The fire escape is leaning away
F#m
And somewhere a taxi calls

F Dm F
So leaving girl, seal your fate
Dm Gm
Leave him girl and run, run away
F#m
To see the sun, to see the light
F Dm F Dm Gm F#m
So leaving girl, live your life

I see your love has slipped from your life
Winter sun and suburban skies
Calling your name this time

I see the rain fall through the day
The fire escapes, the blues and greys
Will always remain the same

So leaving girl, seal your fate
Leave him girl and run, run away
To see the sun, to the light

Some leaving girl will steal the pain
See the world and run run away
To see the sun, to the light
So leave him girl, live your life

Am Gm
Live your life
So leaving girl, seal your fate
See the world and run run away
To see the sun, to see the light
So leave him girl and catch the plane
See the world and run run away

To see the sun, to the light
So leave him girl, live your life

Am **Gm**

Live your life
