

**I Walked**  
**Sufjan Stevens**

The chords repeated through the whole song are:

**Am(x2), D(x2), G(x2), C(x1), Em(x1)**

Repeat: (**Am D G C Em**)

**Am D G C Em Am**

Lover, will you look at me now?

**D**

I m already dead to you

**G C Em Am**

But I m inclined to explain to you what I could not before

**D**

Whatever you didn t do, what you couldn t say

**C Em Am**

I am sorry that the worst has arrived

**D**

For I deserve more

**G C Em Am**

For at least I deserve the respect of a kiss goodbye

Repeat: (**D G C Em Am**)

**Am D G C Em Am**

Tell me, do you think of me now

**D**

As I think of you?

**G C Em Am**

For I could not have shaken the touch of your breath on my arm

**D G**

For it has stayed in me as an epithet

**C Em Am**

I am sorry that the worst has arrived

**D**

For I m on the floor

**G C Em Am**

In the room where we made it our last touch of the night

**D G**

I walked, because you walked

**C Em Am**

But I won t probably get very far

**D**                          **G**  
Sensation to what you said  
          **C**                  **Em**                  **Am**  
But I m not about to expect something more  
          **D**                          **G**  
I would not have run off  
          **C**                          **Em**                  **Am**  
But I couldn t bear that it s me, it s my fault  
          **D**                          **G**  
I should not be so lost  
          **C**                  **Em**                  **Am**  
But I ve got nothing left to love

Repeat: (D G C Em Am)

**Am**          **D**                          **G**                  **C Em Am**  
   Lover, will you look from me now?  
          **D**  
I m already dead  
          **G**                          **C**                  **Em**                  **Am**  
But I ve come to explain why I left such a mess on the floor  
          **D**                          **G**  
For when you went away I went crazy  
          **C**                          **Em**                  **Am**  
I was wild with the breast of a dog  
          **D**  
I ran through the night  
          **G**  
With the knife in my chest  
          **C**                          **Em**                  **Am**  
With the lust of your loveless life

**D**                          **G**  
I walked, because you walked  
          **C**                  **Em**                  **Am**  
But I won t probably get very far  
          **D**                          **G**  
Sensation to what you said  
          **C**                          **Em**                  **Am**  
But I m not about to expect something more  
          **D**                          **G**  
I would not have run off  
          **C**                          **Em**                  **Am**  
But I couldn t bear that it s me, it s my fault  
          **D**                          **G**  
I should not be so lost  
          **C**                  **Em**                  **Am**  
But I ve got nothing left to love

Repeat: (D G C Em Am)

D

G C Em Am

I walked, because you walked
