

Day One

Sugarplum Fairy

I m sorry I didn t write down exactly when which chords has to be played,
but they re always in the right order so you won t have any problems.^^

The chords are always the same in verse, bridge and chorus.

It s quite easy so have fun! (:

Chorus:

C Am F G

From day one
I ve wanted you
And now I feel so all alone
In the sun
I m haunted too
And now I feel so all alone

Verse:

Am C G F

Maybe we never succeeded
Blame me because I didn t see
That everything I ever needed
Was right in front of me

Bridge:

F G C Am F G

Is it hard to forget, forget that we ever met?
With your head in the sand, remember

Chorus

Verse:

A rain falls and covers my silence
Empties the street from it s scum
Thunder rows out in violence
Oh brother what have I become

Take me out so I can meet her
Or someone else I don t care
Take me to where you prefer
Anywhere, out of here

Bridge:

There s still time, I won t fall
I got things to give, give it all
Just to be by her side I gave it

Chorus

C Am F G

In the sun
I have wanted you
And now I feel so all alone

In the sun
I have wanted you
And now I feel so all alone
