Tuning: Standard

Chords :

[X X 7 5 0 0]
[X X 10 0 8 0]
[X X 3 5 0 0]
[X X 2 5 0 0]
[X X 5 5 0 0]

Extremely fast picking for original version, slower picking for acoustic album
version

listen to the original song please because picking pattern gets really
repetitive and i
want to count how many times these patterns are played

Add some nice dreamy delay effect and that s basically it!

```
e|-----------------0-------------------0-----------------------0----------|
B|---------0-------------------0---------------------0-------------------|
G|------------5-------------------5-----------------------5--------------|
D|-----7-------------------7-----------------------7--------------------|
A|---------------------------------------------------------------------|

G|------------5-------------------5-----------------------5--------------|
D|-----3-------------------3-----------------------3--------------------|
A|---------------------------------------------------------------------|
E|---------------------------------------------------------------------|
```

attention, this arpeggio is only played twice, you can easily hear the D string

on the
recording

```
