One life is all I need

C **Am** **G** **F**

C **E** **F**
North Richmond Street will bloom

G **Am** **F**
Greener days of spring are coming soon

This is my first tab, so please give me your opinion!

I know a lot of the chords are probably shifted over from where they are in the song. That happens because the spacing on the tab preview is different from the spacing on the tab itself. I'm afraid I can't help that, but I think you guys could figure it out. Just listen to the song to see where the chords fit, the order should be the same. Sorry!
