The Second Coming

**F, C**

I m renting out my head to the seconded coming  
Things are all classed an i m sick of running  
The chemical faces are on there way  
An strapped down in the back room chasing the days

**Dm. F, C, G**

But i was laying out in long grass  
Just watching the clouds pass under the sun  
An i was dreaming of a journey  
Down a river to an ocean

**Dm, F, Dm, F, Dm, F, G**

Through the breaks and the waves  
I could see that we were saved  
I could see that we were saved  
From destruction

I m renting out my head to the second serving  
Beat up by emotion 247  
The chemical faces are here to stay  
An i m strapped down in the back room just chasing the days

But i was laying out in long grass  
Just watching the clouds pass under the sun  
An I was dreaming of a journey  
Down a river to an ocean

Through the breaks and the waves  
I could see that we were saved  
I could see that we were saved  
From destruction

I m renting out my head to the seconded coming
