

Daylight

Sunny Levine

Sunny Levine - Daylight

<http://www.myspace.com/sunnylevine>

<http://www.quango.com/artists/sunnylevine.php>

Key of A, ear-transcribed on ukulele by Neil Killer.

Chord progression throughout the song is:

F#m7 - E - C#m7 - D

These lyrics are based on the Morgan Page remix of the song.

Daylight

Daylight

If you shake that caboose every which way but loose
Well, no one s gettin duped this time
The orders seem tall if we re tryin to have a ball
While we gettin juiced on my dime
Anyway I think I need more than just a little
Dip for this chip on my shoulder
These names never quite paved way
And it ain t like we re getting any older

Tired of these night time hookers with their writing on the wall
Always coming through, whenever you call
These late night lookers, just flexin it all
Make your dreams come true, but I m tired of it all

I want daylight, I want daylight
I want daylight, oh, I want daylight, whoa

Baby we were raised by wolves and we can t settle down
With just enough game to keep movin it around
These dogs in my blood and I m just trying to keep a whisper
From all of these misses with their knock off kisses
I talk my trash but it won t stand firm
So when you see me eat my words, don t you raise no concern
These names never quite paved a way
And it ain t like we re getting any older

Tired of these night time hookers with their writing on the wall
Always coming through, whenever you call
These late night lookers, just flexin it all
Make your dreams come true, but I m tired of it all

I want daylight, I want daylight

I want daylight, I want daylight

Yeah, I want daylight, just a little daylight
I want daylight, oh, I want daylight, whoa

Daylight
Daylight

I had my share of these late, late nights
I never got enough of that good n clean life

Tired of these night time hookers with their writing on the wall
Always coming through, whenever you call
These late night lookers, just flexin it all
Make your dreams come true, but I m tired of it all

I want daylight, daylight
Make your dreams come true
But I m tired of it all

I want daylight
I want daylight
Yeah, I want daylight
Just a little daylight

I want daylight, oh
I want daylight, whoa
I want daylight, oh
I want daylight, whoa

Daylight
Daylight
Daylight
Daylight
