This is a great song on the latest albums, Love Kraft,  
by one of the best bands around, The Super Furry Animals!

INTRO:- **Em AM G F EM,**  
**AM G F EM**

**Am G F Em**  
Sycamore trees blowing green in the distance

She sucked on her thumb in her beautiful jail  
**Am G F Em D**  
A sentence to serve as her dynasty blows up inside her balloon  
**Bm A G F#m**  
Salty Maureen had a bun in the oven  
**Bm A G F#m**  
The daughters of charity let out a sigh

As she suffered they pleaded for mercy she needed a long time ago

**B**  
A long time ago  
**D**  
In the greenest cypress groves  
**E**  
We were beaming golden glow

Ohio heat

**Am G F Em**

2ND VERSE:-

**Am**            **G**            **F**            **Em**  
Day after day and hour upon hour

She counted the seconds till she could no more  
**Am**            **G**            **F**            **Em**            **D**  
As she climbed through the window and lowered herself with some sheets all tied  
up  
**Bm**            **A**            **G**            **F#m**  
Ran through the fields till the ocean got closer  
**Bm**            **A**            **G**            **F#m**  
Found a deserted and rusty old boat  
**Bm**            **A**            **G**            **F#m**            **E**  
As she fled for her life she did capsize and die a long time ago
