Done by ear. Lyrics are pulled off of some site (and incomplete).
I play an acoustic and like playing with the AMaj7 (x02120), but the regular A
(x02220) is fine (or power chords).
I did a rough tab of the first guitar break.

```
      AM7       E
You finally pulled back when the world pulled your hair
AM7       E
Alone in the room with a question hangin
      AM7    E  F#m   E
You left with your hand in the air, and it s still there
```

```
        AM7        E
At your age life moves so fast
      AM7     E
Twelve years old, skinny legs, built to come in last
        AM7        E
Had a mirror that would never lie
          F#m       E
But ? never pays to try

From your seat at the back of the bus
      F#m    E
You re still waving back at us

E F# E (Not sure about these last chords, bass notes sound like **E F# E**, guitar

sounds like **E A G#**, but it s your call)

Enjoy. Always loved this song. Post corrections/additions.
